As like a lot people Dr. Jungels was my doctor for years. He delivered all four of my girls! Had the best cough syrup mix. Also worked with him when he was a rounding Doctor at the hospital. The heath dept. thought my youngest was not thriving, so I made appt. with Dr. for second opinion, he said "have they seen you", for I was not that big. He told me "she is fine!" That was 1991 and she is just fine!Georgeann

He was such a personal Dr. ❤️ he delivered my second daughter. Didn't take long. He said to me after she was here. Now that's the way I like to see my patients do it. Put his hand on my belly. Said your all back to flat belly. Just smiled so big 😊said you can go home. He was a joy to have as a DR.. RIP. JJJ. 😊 to his family & friends

Dr. Jungels took care of me in he Emergency Room some 35 years ago when I was burned. He was an awesome doctor and because of his treatment in the ER, I was started well on my way to healing with little to no scars. He will be missed and is a big loss for the community. My thoughts and prayers are with his family and community at this time.

Dr. Jungles delivered 2 of my five children, let me interview him as a coroner for one of my criminology classes. He also found it super funny that I was messing around with his ultrasound machine while waiting to get a hormone shot. He came into the room and I told him "I think there is a baby in there" he asked how I would know that and I told him what I did and that I seen the perfect image of a baby! He looked himself and said " yes there is a baby!". He said he shared that story many times because he never had a patient EVER do that. He was always pleasant to see. RIP Dr. Jungles.
